

Gene Douglass for Congress – NC #2

AUTOBIOGRAPHY OF EUGENE F. DOUGLASS

I was born and raised in the suburbs of Philadelphia, Pennsylvania. My mother was an elementary school teacher and my father worked for DuPont and later became a College Instructor/Administrator in Engineering. I attended The King's College in Briarcliff Manor, NY where I majored in Chemistry and Math. During the summers of 1975, 76 & 77, I was a member of the Teamsters Union as a Cab Driver in Philadelphia. I graduated in May 1979. I then went on to graduate school in Chemistry, first to North Dakota State University, and then to the University of Connecticut in Storrs, where I got my MS degree in 1982. In 2010, I completed my PhD in Fiber/Polymer Science at NCSU.

After my first MS degree, I worked for a few years in industry as a Chemist, and then went back to school for a theological degree. I received my M.Div. from Bethel Theological Seminary in San Diego, CA in 1989. We moved to Hawaii in August of 1997, after finishing a two-year contract teaching at the College of Micronesia - FSM, in the Federated States of Micronesia, on the island of Pohnpei. I then taught Chemistry in Hawaii, New Hampshire, Pennsylvania, North Carolina, Kazakhstan, Iraq, South Texas, South Carolina, and now I am a retired Chemistry and Education consultant.

My Political Experience:

I ran for the US Senate in 1998, getting third in a field of nine for the Republican Nomination. I served as Campaign Director for my wife Carol, who went on to win the Republican primary and ran in the General Election as the Republican Nominee for US

House District #2 for Hawaii. We then did the same in 2000, also in Hawaii, me coming in 2nd out of 4 candidates, and my wife coming in second to the winner of the primary. We then moved to New Hampshire, where I decided to run for the US House in District #2, against a liberal Republican Rep. Charlie Bass, the congressman at the time who did not support President Bush's efforts on ending partial birth abortion. He won the primary, and then I endorsed him for his later win against Katrina Swett, to retain the House seat for the Republican party. After then, I withdrew essentially as candidates, concentrating on my college teaching.

When I retired, sold my house in Robeson County, I moved up here to Wake County, and realized my district has a liberal feminist representing all of us. And after seeing the great movie, Sound of Freedom, at the theater, I took up the challenge and decided to try to remove her from Congress in 2024, and now in 2026. Paid for by:

A BETTER FUTURE FOR NORTH CAROLINA #2

MY PROPOSALS

I, Eugene F Douglass, a Republican Candidate for the US House NC District #2, Propose the following:

1. LOWER TAXES, SIMPLIFY THE TAX CODE - A lower flat rate, with minimal deductions, for individuals and businesses.
2. LESS GOVERNMENT REGULATION – End the Censorship Big Brother push. Bring back power to the states, with less interference by the federal government in state and local affairs. State and local governments, businesses and individuals spend too much time and money to keep the Federal Bureaucracy happy.
3. LOCAL CONTROL OF EDUCATION. Elementary and Secondary education needs to be under the control of state and local entities. The Federal Government spends far too much money supporting a bureaucracy in Washington D.C., developing fancy educational policies that hinder the proper education of our children. Control of education needs to be brought back to the State and local level to be more responsive to the needs of our children. End DEI and Woke nonsense in education, back to the essentials, Reading, Writing, the Science and Mathematics to prepare students for the future, and college if they choose.

4. A TRUE LOOKING AFTER THE RIGHTS OF INNOCENT CHILDREN AND ADULTS. Protect innocent human life, from conception until natural death. Free from molestation, mistreatment and even others deciding their lives are not worth living. Partial birth abortion is a totally unnecessary gruesome medical procedure that needlessly ends the life of an almost-born baby boy or girl. We can end that, and advocate for at least the protection of innocent children from conception onwards. The states regulating those procedures with the desire to end eugenics or genocide with a “kind face”, of which Planned Parenthood pushes on women who find themselves desperate. Likewise, the philosophy of ending the unwanted life has got to end, and that would include the protecting of children from mentally ill adults who want to cut off their body parts, and those elderly who have become too much trouble to live on under care. Only GOD has the right to choose our sex, and when we live or die!

Representative Deborah Ross’s Record

Representative Ross’s Record on these issues has: EXCESSIVE TAXES, OVER REGULATION, FEDERAL CONTROL OF LOCAL EDUCATION, AND DISREGARD FOR INNOCENT HUMAN LIFE,

1. HIGHER TAXES AND A COMPLICATED TAX CODE. Rep Ross has routinely voted for tax increases and for complications of the tax code.
2. MORE GOVERNMENT REGULATION – Rep Ross has vigorously attempted to keep the federal government improperly involved in many state, local and individual issues. This costs taxpayers millions and millions of dollars.
3. EXCESSIVE FEDERAL INTERFERENCE IN LOCAL EDUCATION. – Rep Ross has consistently voted to have the Federal Government interfere or run the education of our children. Control by a faceless bureaucracy in Washington, DC has played a role

in the decrease in basic skills taught in North Carolina, particularly during the irrational Covid Panic pushed by the liberal teacher unions.

4. SUPPORTS ABORTION on demand for essentially any reason, right in line with Planned Parenthood Rep Ross shows by her record that she supports abortion paid for by all US Taxpayers, and for the old Roe v Wade to be codified in federal law, instead of leaving the power to properly regulate to the separate US States. She supports the mutilation of innocent confused children by insane parents and adults who pretend to care for them. She supports widespread illegal immigration which helps child and adult sex/slave trafficking, because the cartels demand service and money paid back to them upon arrival. Only people who protect innocent human life from conception until natural death belong in public service.
